Leadership Camp is an action-packed, one-week overnight summer camp for entering 6th – 8th grade boys aimed at helping them develop the skills and virtues necessary to be a leader. Every summer, high school students who attend Sauganash volunteer as counselors at the camp. Each counselor is assigned to a team of 10 campers for which he serves as a mentor and coach. Throughout the week, the counselors give their teams virtue talks, help the boys to apply principles of leadership to concrete situations during the camp, coach their teams in sports and night games, and assist students and teachers in the daily classes. Most importantly, the staff speak individually with each camper to help him grow in self-knowledge and to formulate resolutions for growing in character after the camp.
